

Offsite cloud video storage. Protect your property CCTV system.

Powered by **videoloft**

- All video backed up in a secure offsite cloud
- View live feeds & recorded video events from anywhere and at any time
- Receive instant notifications when motion is detected
- Compatible with a wide range of professional security cameras
- Intelligent video analytics

Videoloft features.

Multi-user permissions.

Give your property managers or security personnel read-only or full admin access to all or specific cameras, depending on your requirements.

Unlimited motion alerts.

Get instantly notified via email or push notification when something happens with unlimited motion activated alerting.

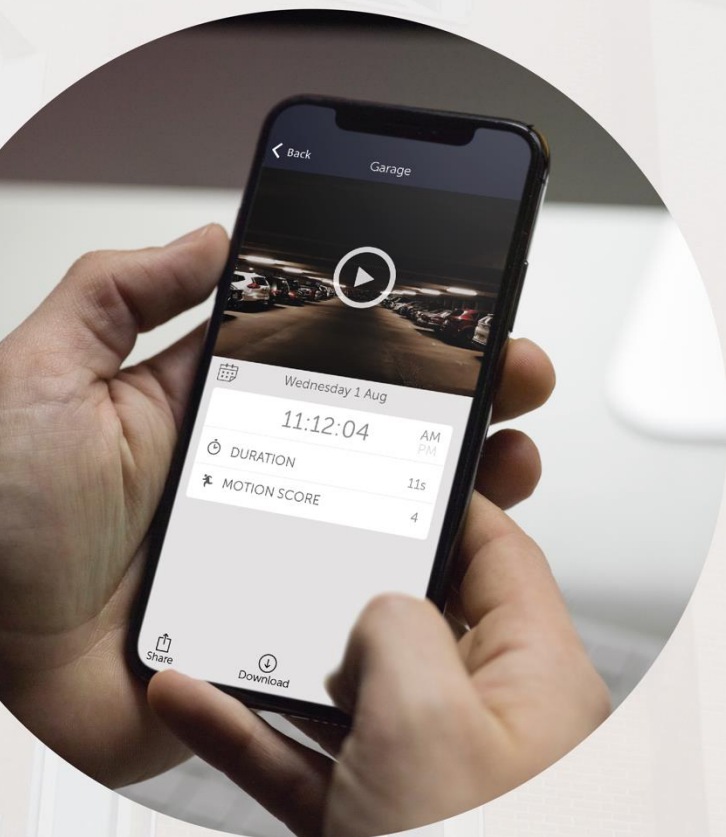

Multiple locations and cameras on one platform.

Easily monitor multiple locations on one platform. Check in on your cameras any time and from anywhere using either the Videoloft mobile app or the online web viewer.

Camera health checks and offline alerts.

Get alerted if your security system goes down. You can access vital camera health information remotely, with the Videoloft support team on hand for more involved diagnosis.
