Offsite cloud video storage. Protect your campus CCTV system.

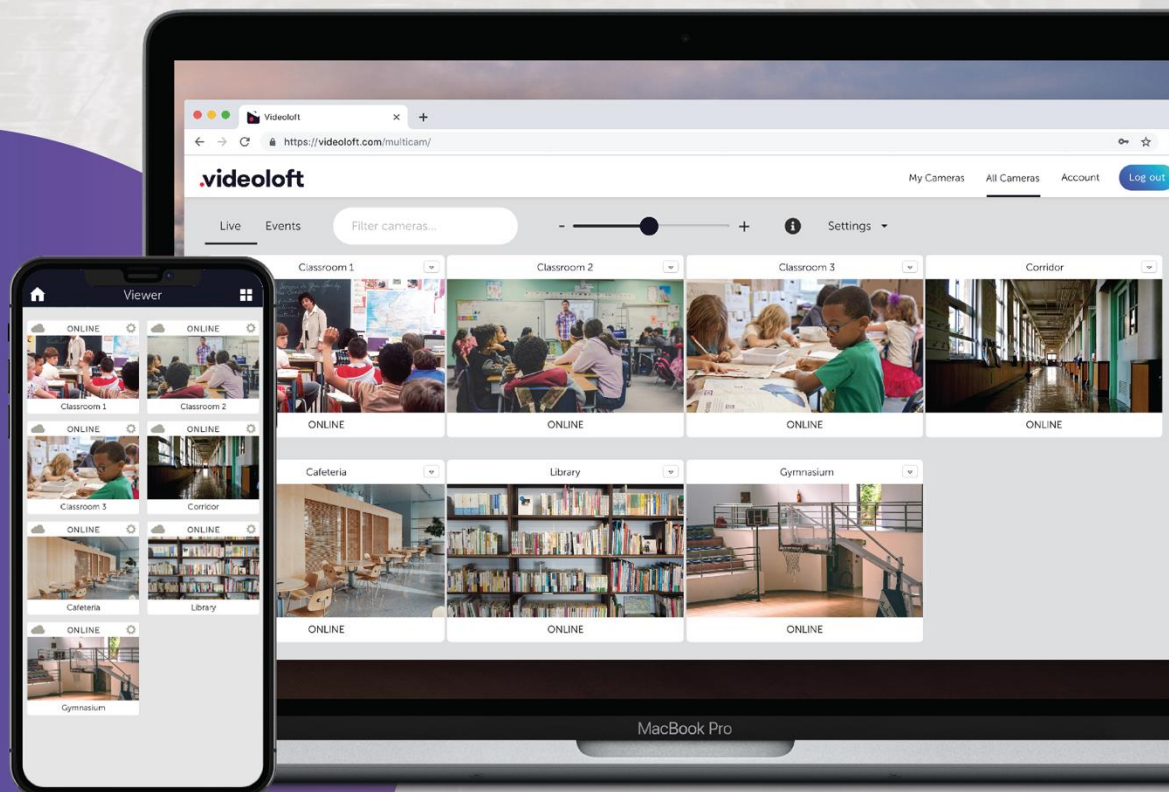

Powered by .videoloft

- All video backed up in a secure offsite cloud

- View live feeds & recorded video events from anywhere and at any time

- Receive instant notifications when motion is detected

- Compatible with a wide range of professional security cameras

- Intelligent video analytics

Videoloft features.

Critical camera backup.

Add cloud to critical cameras pointing at the school's entry points, drop off zones, or at server rooms to ensure the video is securely backed up.

Multi-user permissions.

Improve security by giving your security personnel or first responders read-only or full admin access to all or specific cameras.

Remote video access.

View camera live feeds & recorded video any time and from anywhere using the Videoloft mobile app or online web viewer. Easily download and share video events straight from the app.

Scalability & flexibility.

Choose a plan that suits you & keep your video for 7, 30, 90 days or more. Cloud provides affordable and scalable storage, and ensures that footage cannot be tampered with onsite.
